EDUCATION

ST. VINCENT PALLOTTI COLLEGE OF ENGINEERING AND TECHNOLOGY, NAGPUR, MH(INDIA)

2008 - 2012

Bachelor of Engineering, Electronics & Tele-Communication

- Maintained a promising academic record and demonstrated a high level of technical Proficiency and Competence.
- Part of Student Welfare Community and organized cultural/sports events, guest lectures for students.

WORK EXPERIENCE

❖ **Consultant (Frontend Lead) at Deloitte, India**

Jan 2019 – Present

Role Description: Leading the E2E UI development of asset management product for an independent investment firm. Responsibilities include:

- Interacting with stakeholders to gather functional and technical requirements. Proposing design and POC solutions.
- Brainstorming with team members to come up with new optimized concepts and guiding them.
- Utilizing Redux to create and maintain state across application.
- Conducting code peer reviews with other team members and providing additional support to deployment activities.

Achievements: Organization has rewarded me with 4 Applause awards for being outstanding, consistent and commitment towards work throughout assignment. I have created number of reusable Web components for team that resulted in productivity. Recognized as the leading resource for Front End development and knowledge sharing.

Technology: ReactJS, Redux, Hooks, JavaScript, HTML5, CSS3

❖ **Consultant (Blockchain/ReactJS Developer) at Deloitte, India**

July 2017 – Dec 2018

Role Description: As a Blockchain enthusiast, I am also working on media licensing blockchain implementation as an industry initiative. Responsibilities include:

- Driving daily scrum calls, managing project dashboard in JIRA.
- Writing smart contracts in Solidity, Ethereum and NodeJS API as per the analyzed requirement.
- Developing screens in ReactJS and Redux framework.
- Conducting code peer reviews and documenting all code changes.
- Providing an additional support in deployment activities.

Technology: Ethereum, Solidity, React JS, Redux, React Hooks, JavaScript, HTML5, CSS3

❖ Associate Projects (MEAN Stack Developer) at Cognizant, India

September 2016 – June 2017

Role Description: Worked as Frontend/MEAN Stack Developer on responsive web design application to authenticate and audit product against chain of transaction for supply chain domain-based firm. Responsibilities include:

- Led a complete module and utilizing MEAN stack to develop and enhance application.
- Worked with stakeholders to gather functional and technical requirements.
- Shadow team lead to get a feel for their day-to-day responsibilities.
- Helped with process improvements, making suggestions on workflow changes where needed.

Achievements: Back to back 3 successful production release without any issues and recognition by leadership team for it.

Technology: JavaScript, HTML5, CSS3, MEAN stack, Angular 2, Webpack, LESS, Typescript, Bootstrap

---

❖ Senior Software Engineer (Front End Developer) at Capgemini, India

September 2013 – August 2016

Role Description: Created multiple web applications, participated in the whole process of their development: product design and estimation, code design, UI/ UX design, product launch and maintenance. I ensured the technical feasibility of UI/UX designs and optimized application for maximum speed and scalability.

Technology: JavaScript, HTML5, CSS3, MEAN stack, Angular 2, Webpack, LESS, JQuery, BackboneJS, RequireJS, Bootstrap and JEE
